

- **Summary:**

The UNESCO Chair has maintained the academic links which have been pioneered at the Institute of Education for the last three decades. Educational policy issues in the field of intercultural education have been addressed through work with the Council of Europe, the European Union and various ministries of education. These links include contribution to programmes of teaching, research and development work. Much of this output is disseminated through seminars, conferences, publications and translations.

- **Teaching:**

My teaching includes lectures and seminars in the following subjects:

- inter-cultural education
- citizenship and human rights education
- education in multicultural societies
- intercultural arts education

Research Projects:
